

ADD EMAIL TO IPHONE OR IPAD

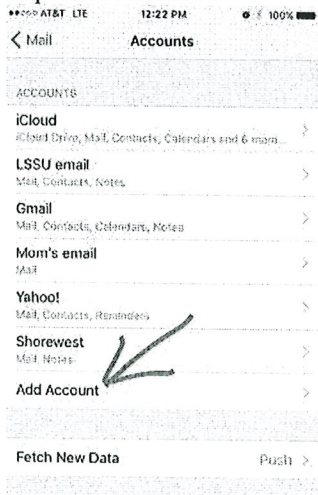

- Open settings

- Open Accounts & Passwords, (older versions of iOS will say Mail, or Mail, Contacts, Calendars)

- Tap Add Account

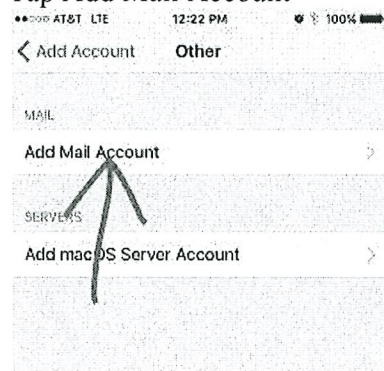

ADD EMAIL TO IPHONE OR IPAD

- Choose other (bottom option)

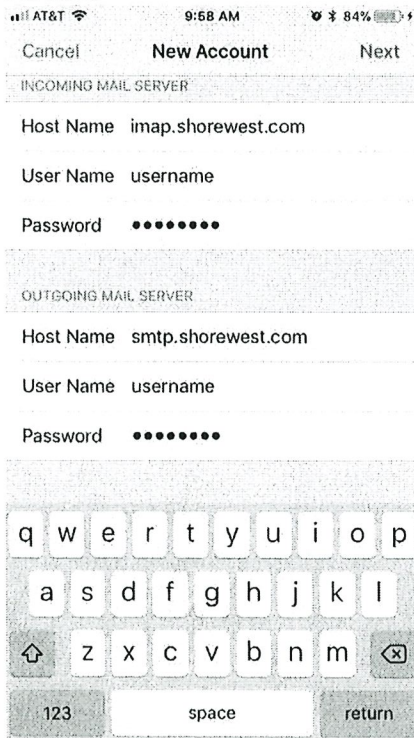

- Tap Add Mail Account

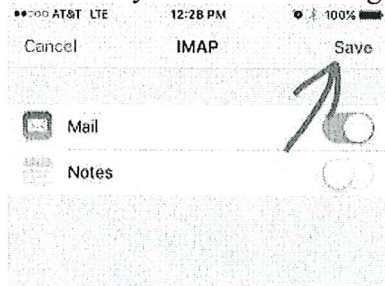

- Type in your name, full Shorewest email address, email password, and description (I use Shorewest)
- Tap Next
- Incoming mail server host name is `imap.shorewest.com`
- Outgoing mail server host name is `smtp.shorewest.com`

ADD EMAIL TO iPhone OR iPad

- Make sure your username (first part of your shorewest email address) AND email password are in BOTH sections

- Tap Next
- The screen will say verifying. This could take a few minutes
- On the final screen (IMAP) tap on Save. You MUST complete this step or nothing you just entered will be saved and you will have to begin the process over again.

- Your Shorewest email will now come into the email app
